

Staying Safe in the Big Storm

S. Brawley, Healthy Social Behaviors Project

A big storm is coming!

We can stay safe during the big storm that is coming.

We will stay away from windows.

If the electricity goes out, we can use batteries.

We can use flashlights to see in the dark if the lights go out.

We can still play with our toys.

We can still build with blocks.

We can play games with our family and friends.

We might have to eat sandwiches if there is no way to heat our food.

When the storm is over, we can go outside again.

We will stay safe together.
